PROFESSIONAL EXPERIENCE

Senior Software Developer

Accenture 04/2020 - 04/2021 Remote

- Delivered automation framework which validates the source and target table data and execute data warehouse jobs on demand or on schedule this played a vital role in achieving major Q3 Milestones
- Contributed in building a high performing automation framework which is capable of processing a million records, made use of python dask for parallel computation
- Delivered a dashboard using python dash showing the real time execution result and other key summary
- Trained and managed a team of 7 of developers and discussed issues in order to provide resolution and utilize best practices in Agile

Senior Software Test Engineer

Amdocs 09/2015 - 04/2020 Pune, Maharastra, India

- Lead artificial intelligence and machine learning campaign in Amdocs Optima group, conducted multiple python boot camp and Al awareness sessions
- Delivered a REST API testing framework with python which increased testing efficiency by 150 %
- Pitched a Business Requirement Classifier which can simplify business requirement to create product packages for Kenan (Billing Platform in Telecom industries)
- Developed a testing environment management chatbot which can perform
 operations like get test environment health status of various components like
 CRM, OMS, ABP, AEM, MCSS etc., get execution status from ALM, execute
 sanity test cases. Its core component is built on an Intent classifier using
 BERT, this tool was a major help to manual testers saving ~50% of their time.
- Implemented new practices in 60% of the participated projects
- Singed off 3 major releases on site for digital transformation projects (Singapore and Australia) with high quality ratings by customer

EDUCATION

B.Tech. Electronics and Telecommunications KIIT University

07/2011 - 07/2015 Bhubaneshwar, India

AWARDS

Amdocs Optima innovator of the month, Mar' 20 Amdocs

Amdocs Digital SPOT award,

Mar' 18 Amdocs

Amdocs Quarterly Recognition Mar ' 17 NOTABLE CERTIFICATION

Advanced certification in AI & ML IIIT Hyderabad, 2020

AIML Certification by DRDO (Defence & Research Organization)

Online Course 2021

Machine Learning by Andrew Ng Coursera, 2021

Al Programming in Python Udacity Nano Degree, 2019

INDIVIDUAL PROJECTS

Image search UI (Using Open AI's CLIP)

A embedded vector created by training pair of encoded image and sentence describing that image on vision transformer & transformer. The embedded vector is then used as a zero shot classifier.

Aspect based sentiment classification

Built an improved version of sentiment classifier which can predict the sentiment of a review comments based on aspect words.

Handwritten Captcha inference pipeline Fine-tuned a pre-trained vgg16 model with MNIST dataset, developed an inference API using Flask to predict probability of handwritten digit

Offline Speech to text converter

Fine-tuned wav2vec2 model with 5hr of labeled data to obtain transcription of a speech stored in .wav file.

TECHNICAL SKILLS

Scripting Languages

Python3 Shell HTML5 JS

Database

Oracle DB2 Postgresql

Data Visualization

Ms. Excel Tensorboard Tableau

Web Framework

Flask Django
